

Date: Monday 20th August 2018

Time: 6.30 – 7.30 pm

Venue: Rooms 4050a & 4050b, 4th Floor, University of Adelaide Health and Medical Sciences Building, North Terrace, Adelaide, SA 5000

RSVP: 16 August 2018

Register: reception@ashfordadvancedeyecare.com.au

TOPIC:

Speaker: Assoc. Prof. Michael Goggin

Topic: “Irregular corneal Astigmatism – new approaches in the era of crosslinking”

Learning objectives:

By the end of the session, you will be able to:

- Select those cases of irregular astigmatism that are amenable to topographically driven excimer laser ablation
- Understand the possibilities and limitations of the technique
- Understand its applicability to keratoconus, the single commonest cause of irregular astigmatism
- Understand the role of collagen cross linking in widening the pool of patients who could benefit from these techniques

CPD points –  3
